ABOUT ME 👋

Passionate about learning and growing as a professional, I focus on web development with a strong emphasis on **JavaScript**, including libraries like **React** and **Next.js**. With solid experience in full-stack and backend technologies such as **PHP**, **Python**, **WordPress**, and **Odoo CRM,** along with a good grasp of **Linux**, networking, and systems, I'm committed to building effective solutions. I aim to contribute to the tech world through practical and innovative development.
